PROFILE

Full Stack Web Developer (React.js, Node.js, Express.js, MS SQL) with 6 months of hands-on training and 3 self-built full-stack projects covering real-time communication, payments, and role-based access control. BCA graduate in Cloud & Cyber Security from IIMT University, with working knowledge of AWS and cloud fundamentals. Quick learner, comfortable owning a feature end-to-end from database to UI. Available for Noida, Delhi NCR, Gurugram, Bengaluru and Remote roles.

SKILLS

Frontend: HTML, CSS, Bootstrap 5, JavaScript, React.js
Backend: Node.js, Express.js, REST APIs
Programming Languages: Python, JavaScript
Database: MS SQL
Real-time & Integrations: Socket.io, WebRTC, Razorpay API
Cloud & Tools: AWS, Cloud Computing fundamentals, Git & GitHub

EDUCATION

BCA — Cloud & Cyber Security, IIMT University, Meerut Aug 2023 – Jul 2026
12th — Saraswati Inter College (UP Board) 2023
10th — UP Board 2020

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- NPTEL — Cloud Computing & IoT
- Tutedude — MERN Stack Course
- Introduction to Cloud
- Linux Administration

EXPERIENCE

Full Stack Web Development Trainee — Taksh IT Solutions Pvt. Ltd., Noida Mar 2026 – Aug 2026

- Completed 6 months of hands-on training in full-stack development using React.js, Node.js, Express.js and MS SQL.
- Worked with MS SQL for schema design, query writing, and database integration across training projects.
- Built frontend UI components and backend REST APIs, connecting both to a working database layer end-to-end.
- Built 3 full-stack projects: a real-time tutor marketplace, a doctor appointment system and a school ERP.

PROJECTS

Askvora — Real-Time Tutor Marketplace Platform

- Built a full-stack platform connecting students with tutors, featuring real-time chat and screen sharing via Socket.io and WebRTC.
- Integrated Razorpay for secure payments and added a review & rating system for tutors.
  Tech: React.js, Node.js, Express.js, MS SQL, Socket.io, WebRTC

Doctor Appointment & Admin Approval System

- Developed a healthcare appointment booking app with role-based authentication for Admin, Doctor, and Patient roles.
- Built an admin approval workflow, appointment booking flow, and an admin dashboard to manage users and appointments.
  Tech: React.js, Node.js, Express.js, MS SQL

School Management ERP System

- Built a school ERP handling admissions, attendance, fee records, and staff management through a centralized admin panel.
- Implemented role-based dashboards for Admin, Teachers, and Students with secure login and data access control.
  Tech: React.js, Node.js, Express.js, MS SQL

LANGUAGES & STRENGTHS

Languages: English, Hindi | **Strengths:** Problem Solving, Effective Communication, Critical Thinking
